Quick-Start Guide

Welcome to mirComp, a lightweight mir-based compositor developed by Samantha Jones as a Technical Test for Canonical's Mir team.

Below are a few commands to get you started using mirComp. For more information about the development process, please see the included README.

Program Features
- Open the Weston Terminal with **Ctrl + Alt + Shift + T**
- Open Gnome Chess with **Ctrl + Alt + C**
- Re-open this document with **Ctrl + Alt + H**
- Close the compositor with **Ctrl + Alt + Bksp**
- Open any other application of choice from the Weston terminal command line
